New Osceola Farms Company To Plant 4,000 Acres Cane 5 Miles East Of Canal Point; To Employ 1000 Men

Vermillion Sugar Factory Purchased In Louisiana Will Be Shipped To Canal Point Before December 15, 1960; Big Enough To Grind 2,200 Tons Cane Daily; Foundation Work Already Started At Mill Site; 180 Men Now Working Planting Cane; Will Continue Planting At Rate of 50 Acres Daily.

While a lot of conversation is being bruited about in many parts of the Everglades section of Palm Beach county concerning new cane acreage and sugar mills, Osceola Farms Company is going right ahead planting cane and making plans to erect a new sugar factory five miles east of Canal Point.

In an official statement released this week through The Everglades News, the treasurer, A. Fanjul, Jr., said the sugar mill would be moved on schedule from Louisiana and arrive in Canal Point on or before Dec. 15, 1960. In the meantime work is going ahead on planting 50 acres of cane each day with a crew of 180 men working at the operations site on the farm formerly owned by Alex Ramey of Canal Point. Mr. Fanjul said foundation work for the mill has been started and will continue on schedule to be completed in time for arrival of the factory from Louisiana.

The complete statement as released by Treasurer Fanjul is printed herewith:

In reference to your request regarding some information from Osceola Farms Co. and objectives of the same for publication in your newspaper, I am happy to give you the following information in hope that you may extract sufficient data for your prospective article.

Osceola Farms Co., a Corporation, organized under the laws of the State of Florida, will establish a sugar factory on the old Alex Ramey property on Connors Highway, six miles east of Canal Point, with a capacity to grind an average of 2,200 tons of cane per day during the first grinding season which is to start in November 1961 and continue through the first part of 1962.

This factory will be erected with equipment purchased from Vermillion Sugar Factory and component parts of the buildings it proposes to erect and foundations are expected to be ready by the end of the current year.

With regard to the agricultural aspect, Osceola has under lease approximately 4,000 acres and expects to increase this acreage in

Local 4-H Clubbers Win Poultry Show

Three Canal Point 4-H Clubbers, Janette Harrington, Nancy Harrington and Dick Strayer, were awarded prizes at the annual Poultry Show held in the Mounts Building on Military Trail under the sponsorship of the Sears, Roebuck Foundation.

Each exhibited 10 six-month-old Rhode Island Red pullets which had been raised during the summer from a flock of 50 baby chicks furnished each by the foundation last April.

Janette, with 268 out of a possible 300 points, won second place, receiving a blue ribbon and \$13. Nancy, close behind her sister with 267 points, was third, also receiving a blue ribbon and \$13. Dick got a white ribbon and \$6 for placing eighth. A Loxahatchee boy, Donald Jarrel, took first place with a total of 288 points, winning a blue ribbon and \$15.

The judging was based on both the exhibit and the completeness of the project record book. Lester Kalch of the University of Florida was judge. Roy Griffith, assistant County agricultural agent in charge of 4-H Club poultry projects, was in charge of the exhibits.

the near future. This land in the most part has been prepared and is ready to plant. The planting season started October 1st and over 600 acres have already been planted. Approximately 3,600 acres will be planted this present year at a rate of 50 acres per day.

The product of these 3,600 acres plus some cane which is to be purchased from independent growers will supply to Osceola the raw product it is to process.

Osceola is now employing over 180 men in the current planting operation, and expects to employ over 900 men in the field operations during the grinding season plus 230 additional men for the actual sugar processing. Therefore, this sugar factory will bring a payroll to more than 1,000 men in the Glades area.

I trust this will at the present time give you the information you need in compliance with your request. I will keep you posted of our progress.

Best regards,
Osceola Farms Co.
A. Fanjul, Jr.
Treasurer.

Following the awarding of prizes, the children will go to their various school room where room mothers and teachers will serve free refreshments. Preschool-age children will have their refreshments in the auditorium.

After refreshments all of the carnival booths, sponsored by the school rooms, will open for an evening of entertainment and merriment.

FFA Chapter Class Has 19 Green Hands

A class of 19 Green Hands, all Pahokee High School freshmen, was initiated into the Pahokee Chapter, Future Farmers of America, at a meeting in the agricultural building Monday night, with President Lee Granamis and other chapter officers in charge of the initiation ceremony.

The class included Wayne Boynton, Evan Cowart, John Cruthird, Joe Davis, James Goodson, John Harris, Lowell Hughes, Billy Kennedy, Melvin Lamb, Mead Maxwell, John Mills, Lynn Nicely, Harold Peacock, Charles Peden, Pete Storey, Ray Suggs, Larry Webb, William Cook and Kenneth Scape. Harold Peacock won the chapter's annual award to a green hand, an FFA jacket.

Plans were made for improving the pasture on an eight-acre field at the chapter ranch by sodding the field with St. Augustine grass. A new chapter budget for the current year was adopted. It was announced a new 50-star flag is being presented to the chapter by a Belle Glade fraternal group.

WILLIE VEAL SPEAKS

Willie Veal, graduate member of the Pahokee Chapter, Future Farmers of America, who is attending Palm Beach Junior College, was speaker at the FFA chapter meeting in the agricultural building. The group gave a rising vote of thanks to A. R. Harrington, Canal Point farmer, for the donation of eight acres of mature field corn, which the FFA boys are harvesting and will use for feeding cattle at the chapter ranch through the winter.

Hospital Birthday Marked By Dinner

Members of the board of directors of the Northwestern Palm Beach County Public Hospital District held their annual dinner meeting at the Elks Club Monday night, at which time the 24th anniversary of the founding of the Everglades Memorial Hospital, which the board controls, was observed. Guests included wives of board members, past board members and their wives or husbands, and personnel closely associated with the board.

Following a review of the history of the Everglades Memorial Hospital, which was organized in 1936 and came under the jurisdiction of the present district board in 1949, Edward A. Jensen, retiring chairman, listed some of the improvements made at the hospital during the past year. Among these improvements: Installation of new X-ray and laboratory equipment, \$5,000; installation of a modern bookkeeping machine to improve office efficiency, \$6,000; installation of new operating room lighting equipment and obstetrical table, \$2,700; increasing the electrical load capacity of the plant, \$4,000; installation of addition air conditioning equipment, \$2,600; and installation of a new septic tank and drain field, \$2,000.

He suggested the additional of a pediatrics ward and an isolation ward, and new private rooms with baths as improvements still needed most regularly.

Luke W. DuFresne, administrator, reported the hospital ended its fiscal year on Sept. 30 "in good financial condition, having met our obligations," despite the fact the tax assessment was reduced last year, substantial improvements were made in the hospital plant, and operational costs are constantly increasing.

The new board now assuming duties of office includes W. S. Plumer, chairman; R. C. Lane, vice chairman; Floyd Erickson, secretary; Milton Douglas, treasurer, and E. A. Jensen, director. On the medical staff are Doctors E. J. Grahm, W. T. Gist, R. L. Hutton, E. C. Johnson, F. H. Potete, Jr., and W. C. Young.

Pahokee PTA Plans Halloween Fete

"Feasting — Frolicking — Fun" will be theme of this year's annual Pahokee PTA Halloween carnival to be held on the old athletic field east of the elementary school Monday, starting at 6 p. m.

Food for the whole family, appealing to all tastes, will be offered in a variety of food booths featuring hot dogs, hamburgers, barbecue, pies, cakes, coffee, cold drinks and the like.

Entertainment for adults as well as children, including games of skill, hay rides, fire truck rides, the country store, cake walk, fish pond, merry-go-round and the like, will be found on the midway in the various booths sponsored by elementary school rooms, high school student groups and civic groups.

Since this is the only fund-raising project of the Pahokee PTA, it is important that the public give its full support and patronage to the carnival, according to J. H. Wilkinson, Jr., PTA finance chairman, who serves as general chairman in charge of carnival arrangements.

Blue Devils Play Stuart 11 Tonight

At the halfway mark of their 1960 schedule the Pahokee Blue Devils will be seeking their first victory of the season as they travel to Stuart this Friday night to engage the Tigers in a contest to see which team gets out of the Suncoast Conference cellar. With Stuart having an 0-4 record in conference play to date, compared to Pahokee's 0-5, the Blue Devils statistically have a 50-50 chance of winning this one.

The Lake Worth Trojans rolled to an easy 21-0 win over the Blue Devils on Lair Field last Friday night despite the dogged determination of Coach Web Pell's men. Halfback Curtis in a contest to see good game, both on offense and defense, sparking both of Pahokee's threats to score, which came in the second half, when the Blue Devils reached the Trojan's six-yard line in one drive and the three in another before being stopped and losing the ball on downs.

Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

\$3 = \$4 *fourteen months faster than before*

The Bonds you own are better than ever, too

The new $3\frac{3}{4}\%$ rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra $\frac{1}{2}\%$ from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

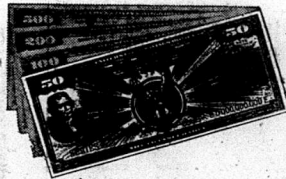

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Mrs. Cunningham Is Recipient Of Special Recognition

Mrs. Kathryn Enecks Cunningham, first grade teacher at the Pahokee Elementary School, was given special recognition at the October meeting of the Parent-Teacher Association, when she was introduced by Principal Herman Austin as the only elementary school teacher in Palm Beach County to receive a Career Increment Award during the past year.

In 1957 the State Legislature passed a law to aid the teaching profession known as the career increment plan to provide increased wages for teachers who work beyond the call of duty in their school and communities, thus giving teachers an opportunity to earn more money without leaving their classrooms. Each County is responsible for putting the plan into action, using county, not state funds. A teacher's teaching ability, service to school and service to community is judged in determining eligibility for the career increment award.

Mrs. Cunningham, a native of Georgia, received her B.S. degree from Georgia Teachers College and has done graduate work at the University of Florida and Florida State University. She has taught in elementary schools for 21 years, and has been teaching in Palm Beach County 17 years.

She is an active leader in school, community and church work. A member of the National Education Association, Florida Education Association and Palm Beach County Classroom Teachers Association, she is vice president and public relations chairman of the County CTA and a nominating committee member of the FEA Classroom Teachers Department. Also on the County level, she is a member of the School Health Council and has served on workbook, promotion policies, elementary curriculum and tenth month planning committees. Currently she is chairman of the Migrant Steering Committee for Glades Schools.

A member and past president of the Pahokee PTA, she is also secretary of Delta Kappa Gamma and past president of a Pahokee chapter of Beta Sigma Phi. In the latter group she has served as program chairman, treasurer, parliamentarian, hospitality chairman and

"sorority girl of the year."

As a member of the Pahokee First Methodist Church, she is serving as chairman of the commission on education, superintendent of the youth division in the church school, member of the official board and secretary of the Woman's Society of Christian Service.

On Aug. 8, 1937, she married David W. Cunningham and they have three children: David, Jr., Pahokee High School graduate who is attending Memorial Mission Hospital School of Nursing, Asheville, N. C., preparatory to becoming a medical doctor; Judy, PHS graduate now in her second year at Palm Beach Junior College, preparatory to following her mother's footsteps and become an elementary school teacher; and Harry, a freshman at PHS.

New Circle Head Named In Pahokee

Mrs. Edith Casto was elected chairman of a new circle that was organized within the Pahokee Methodist Woman's Society of Christian Service at a meeting at the home of the Rev. and Mrs. T. O. O'Steen.

LET US FORD DEALERS SHOW YOU THE MOST MAINTENANCE-FREE FORD IN HISTORY

OUR '61 FORDS ARE BEAUTIFULLY BUILT TO TAKE CARE OF THEMSELVES... AND TO TAKE CARE OF YOU BY CUTTING COSTS, ELIMINATING MANY SERVICE STOPS!

No doubt about it, the 1961 Ford is a beautiful automobile. But the really big news is the way it can save you money!

For instance, in the '61 Ford you'll normally go 30,000 miles between chassis lubrications. Then, a quick, inexpensive Ford Dealer Tune-Up (about \$4.00)** will get you set for another 30,000 miles. You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter. Ford's powerful, new Truck Size brakes save, too, for they adjust themselves automatically for the life of the lining. And Ford's double-wrapped, aluminum muffler normally lasts up to 3 times longer than the ordinary kind.

Add to these features the fact that Ford's Diamond Lustre Finish never needs waxing, and you have a car that can save you plenty in maintenance costs. And remember, we Ford Dealers were the first to extend our warranty on '61 cars to 12,000 miles, or one full year, whichever comes first. Ask your dealer to show you the details.

**Based on 15 minutes service at today's national average labor costs.

LET'S COMPARE OPERATING COSTS

Based on 12,000 Miles for One Year's Driving

YOUR PRESENT CAR OPERATING COSTS	OUR ESTIMATE	1961 FORD
CHASSIS LUBRICATION (As much as \$1.50 every 1000 miles)	\$18.00	30,000-MILE CHASSIS LUBRICATION (under normal driving conditions) \$3.00
OIL CHANGES (As much as \$3.00 every 2000 miles)	\$15.00	OIL CHANGES (As much as \$3.00 every 4000 miles) \$3.00
MUFFLER REPLACEMENT (Depending on type, charge as high as \$10.00 for new muffler)	\$15.00	DOUBLE-WRAPPED ALUMINUM MUFFLER (Lasts up to 3 times as long as ordinary muffler) \$4.00
SHOCK ADJUSTMENTS (As much as \$2.00 per adjustment—up to twice per year)	4.00	NEW SELF-ADJUSTING BRAKES (Powerful new brakes automatically adjust themselves... automatically for the life of the lining) \$0.00
AUTOMATIC TRANS. BAND & LINKAGE ADJUSTMENT (As often as once per year (approx. \$5.00))	8.75	NEW CRUISE-O-MATIC TRANSMISSION (Band adjustment only) \$3.00
WAXING (If you wax twice per year (approx. \$10.00))	21.00	FORD DIAMOND LUSTRE FINISH (Never needs waxing) \$0.00
TOTAL	\$32.75	TOTAL \$11.00

*The figures in chart above, to left, represent estimates of average national costs to own and operate a 1950-1960 full-size American car for a full year, and driving an average annual distance of 12,000 miles as compared with the 1961 Ford for a full year under the same average conditions. Subtract right-hand column from left-hand column and you'll see that FORD SAVES YOU AS MUCH AS \$71.55—IN OPERATING COSTS ALONE!

Ralph Blank Asks Legislative Job

Ralph Blank, Jr., Democratic candidate for State Senator, this week emphasized again the planks in his comprehensive platform which won him nomination in May and again offered this widely accepted legislative program in his bid for election next month.

High on the list of legislative action needed for Palm Beach County

Blank said, is a continued all-out effort for early construction of a state university at Boca Raton. Blank, who has served as a representative in Tallahassee since 1956, has been closely associated with the Boca Raton University program and is credited with much of the groundwork which brought the school to the county.

Of equal importance to the county is the intangible tax Blank said, and he pledged his continued efforts to seek repeal of the doubled intangible tax measure.

The young legislator also pledged his support for limitation of property tax assessments at reasonable levels and equalization between all counties; repeal of the "Inventory tax"; continued efforts for equal re-apportionment; reorganization of the State Road Department to step up road building in this area by appointment of a road board member from this area.

He pledged his continued support of the minimum foundation program and maximum state aid for schools, school construction and Palm Beach Junior College plus preservation of a free public school system.

Blank said the streamlining of state boards and commission to effect greater economy is needed in state government as is continued support for flood control and continued opposition to indiscriminate filling of waterways.

The promotion of tourism, light industry and agriculture and full support of Development Commission appropriations for advertising Florida and its products.

Blank also advanced favor for revision of Florida's constitution and for State's rights and maintenance of public school under state and local control.

Blank is a veteran of two wars, serving in World War 2 as a field artillery officer with the 83rd Infantry Division in Europe. During the Korean campaign, he was called back into service and was assigned as an Army counter intelligence and subversive activities within the Army. He is now a Major in the active Army Reserve.

Blank, a practicing attorney, is an experienced legislator, having represented the people of Palm Beach County in the House of representatives in two regular sessions, two special sessions and one extraordinary session of the legislature.

He is 39 years old, born in Florida; educated at Palm Beach High School and the University of Florida.

He is a member of the American State and County Bar associations, American Legion, VFW and the West Palm Beach Rotary Club. He is a member of the Memorial Presbyterian Church and takes an active part in school activities at South Olive School where two of his three children attend classes.

The Canal Point Methodist Youth Fellowship, assisted by the Baptist Training Union, is again sponsoring this year Halloween "treats" of coin for UNICEF, the United Nations Children's Fund, for the promotion of better health for children the world over through mother and child welfare, protection against disease and better nutrition.

The children will make house-to-house visitations in the community on Monday between 5 and 6 p. m., prior to the start of the PTA Halloween carnival. This is the 10th anniversary of "Trick or Treat for UNICEF" which was started by one Sunday School class 10 years ago. Since then the idea of helping underprivileged children of the world has spread rapidly throughout the nation. Last year over two million children in 10,000 communities participated in this welfare project which holds promise of a happier future for millions of boys and girls suffering from disease and malnutrition in 100 countries.

Last year Canal Point children collected \$90 for UNICEF at Halloween time and it is hoped the public will cooperate in the same generous manner, or even more so, this year.
